Has your sex life become dull and repetitive?

Whether you are a new couple, or have been married for 50 years, it can be difficult to maintain the level of fun and arousal in the bedroom that you would like. Too often, we approach sex as a serious matter, forgetting that it can be a wonderfully creative experience. We let the routine of our daily lives intrude upon the intimate time that we spend with our partner.

If we aren't careful, sex can turn into a boring routine.

Fortunately, there is no need to engage in S&M or head to a swingers club so you can spice up your love life. By incorporating erotic role play into your sex lives, you can heighten and enhance your connection with your partner, whether physically, emotionally or mentally or all three!

If you have ever tried erotic role playing yourself, you know it's hard to come up with interesting ideas, and even harder to get your partner to play along. This is where "131 Sex Games & Erotic Role Plays for Couples" can really help.

The erotic role plays contained in this book will allow you to explore each other's fantasies, fetishes and desires. They have been placed in thematic sections, so you can go immediately to a particular section, or just browse each section as you get to it.

So go ahead & try them out. Allow yourself to be whoever you want. You will enrich your sex life and take your relationship with your partner to a whole new level.

Super helpful to spice it up.

By AElizabeth

For someone who really enjoys sex and sometimes wants to spice it up, this was a great read. As with all relationships, sometimes the sex can get a little boring, or basic, or you just get used to it after a while. But my partner and I read through this together and absolutely had to try some of these situations out. It came

with some laughter, but that is part of what made it so fun. We'd never done any role playing before but what we came to find out was that some roles definitely worked for us and others... well not so much, but everything is definitely worth trying once (or more than once if you really like it). Then it's possible to switch up the roles too! I think our favorite chapter was chapter eight. Going through this book was really eye opening for both my partner and I.

Really good ideas!

By Ashleigh Nolen

This book is very well written! It has a lot of ideas and fantasies that can help! I've thought of some and reenacted some myself, but this had quite a few that I never thought of and there's so much here that you'll never run out of things to do with your partner. When I first read the table of contents, I was a bit worried, especially when it said cheating and call girls/rent boys, but the book is all about consensual relationships with only you and your partner! It even has a list of props that you might be able to use throughout each scenario. It's definitely worth looking into if you want to find a little more spice for the bedroom life.

A fun way to enjoy the bedroom.

By Mikael M

My fiancée and I frequently engage in elaborate sexual role playing and decided to pick up this book to give us a few fresh ideas. A lot of the role plays in this book are simple and fun and allow plenty of room for creativity or switching roles. My only complaints would be that some of them seem samey, being the exact same scenario only with different characters and that there are frequent typos, although those are ignored easily enough.
