## Review

'If you can take only one book to Botswana, make sure it's this one.' BBC Wildlife

## From the Back Cover

Northern Botswana's pristine wilderness protects some of the earth's most spectacular wildlife: dense concentrations of big-game animals, an amazing wealth of birdlife, and huge herds, roaming from the salt pans of the Kalahari to the lush Okavango Delta. Devoid of the marks of modern man, the landscape still bears the imprints of our ancestors, from the subtle art of the Tsodilo Hills to the more brutal remnants of the Stone Age.

A few remote camping spots and a handful of the world's best safari lodges attract true lovers of nature to share in this extraordinary region. With a wealth of practical and background information, this is the essential companion.

Inside you will find: in-depth coverage of national parks, game reserves and private concessions; unrivalled comparisons of safari camps and lodges; area-by-area descriptions of flora and fauna; birdwatchers' hints - the top sites to spot "specials"; numerous GPS points essential for bush navigation.

## About the Author

Chris McIntyre is a director of a UK travel company specializing in southern Africa. He travels regularly throughout the region, including extended trips to Botswana.

The most complete guide to northern Botswana to date!

By Paal Skjetne

I've been waiting for this book for a long time!! None of the other guides on the area even comes close. It is

the most detailed guide I've read on the Okavango, Chobe, Makgadikgadi, and the northern Kalahari. In my view the information seems to be very up-to-date (which is not true for Bradts second edition on Namibia!). This book is suitable for people going on an organized safari (I envy them their \$'s and the luxury that awaits them :- ) ), and those planning an independent self-drive. The maps are good, and a number of useful GPS coordinates are included. The descriptions of off some of the beaten track sites that I have visited are very accurate. If you are a self-drive tourist you might want to look at Mike Mains: "African Adventurer's Guide to Botswana". It has many trails that are more detailed in the same region, but lacks the overview given in this guide describing the many concession areas surrounding the Okavango. The book also includes a very useful section on Livingstone in Zambia, telling you how to get the most out of your visit to the famed Victoria Falls. What do I miss? Talking to Elein Drotsky, she mentioned that here sisters company could arrange boat trips from Shakawe to Maun, water levels permitting. There is no mention of this or any other such service in the book, guess I'll have to do some digging on that one myself. All in all, your \$'s, £'s, €'s or Rand's will be well spent on this guide.

Detailed Guidebook

By Love to Travel

Having just returned from Botswana, I highly recommend this book. It is accurate with just the right amount of detail. Although the author owns his own travel company, his comments and reviews were accurate, thorough and objective as to safari experiences as well as other tour operators.

Over the top for the Okavango

By vlawrence5

Arguably the best guide to the area covered: the Okavango Delta, Chobe, and Northern Kalahari. The 3rd edition remains fairly up to date in most aspects, although black rhinos have been introduced since its publication. Coverage of accommodations is accurate and thorough but be aware that, for those wishing to include the Victoria Falls in their itinerary, the final chapter details accommodations there only for Livingstone, Zambia, rather than Victoria Falls, Zimbabwe.
