The bloodmage Volcrian is dead, but a new enemy lurks in the shadows. The Shade, a fanatical cult of demonic assassins, is trying to resurrect the Dark God and unleash His power back into the world. In their wake, a deadly plague is spreading across the land.

Sora and her companions are the only ones who know of the plague's true source. As the disease spreads, Sora must journey to the City of Crowns to retrieve The Book of the Named, her only hope of stopping The Shade. She and her companions arrive just in time for the winter solstice festival, a notorious two-weeks of fine wines, grand parties and legendary debauchery. Sora must don the guise of a noblewoman and infiltrate the First Tier nobility to stop The Shade before it's too late.

Meanwhile, the assassin Crash is confronted by a ghost from his past. As he uncovers more of the Shade's plot, he finds himself face-to-face with his old Grandmaster. Can Crash lay to rest his past, or will he succumb to his inner demon and rejoin the man who once made him a killer?

This series just keeps getting better!

By Inkspelled Faery

So. Many. Feelings. I'm reminded why I said this is my favorite ongoing series, just—WOW. I have been waiting for this book since January 2014, annoying the author at every possible opportunity and throwing the series in the face of anyone who asks for a Young Adult Epic Fantasy recommendation (and sometimes even when they don't).

The plot:

I was told that this was something like 150K words, but once again, it seems hard to believe because the story moves so quickly. I got caught up in it and after three hours of reading, I started to panic because I realized I was coming to the end. It really wasn't clear how the author was going to end the book, but I was so emotionally invested I prayed. (It's not weird to pray over fictional characters, is it?)

The characters:

Sora's character has matured so very much since we first met her at her Blooming in book 1, yet she still has a kind of sweetness and guilelessness that just melts my heart. I do like reading about a heroine who isn't

another smoldering virago, but still manages to pull off daring adventures. She's much easier to relate to than most of the Epic Fantasy heroines coming out these days and I love her to bits.

Another character I love to bits and who I consider one of my "babies," is Crash. Read any of my other reviews and you will see plenty on Crash. His struggles and growth have been equal to Sora's and it was fascinating to look more into the depths of his psyche and what's going through his head. His relationship with Sora is sweet, complex, beautiful, and irresistible. I'll be the first to admit that their story is one of my favorite things about this series and I'm in knots over what's going to happen in Krait's Redemption.

One thing that surprised me was the part of the book where we see more of what Crash's demon actually thinks of Sora. That was one of the most interesting sections and again, leaves me wanting Krait's Redemption.

Now that I have bombarded you with those paragraphs of Crash+Sora fangirling, I should point out this series does have other characters—not that you would know that by reading my previous reviews.

I kind of missed Burn and wished we'd gotten to see just a little more of him, but I was very happy about how much "screen time" Caprion had. There was the subplot of him and his past experiences with the Sixth Race and thanks to reading the prequel novella, I was almost as invested in that vein as I was the one about Crash+Sora. Even if Caprion was always the first to think the worst of my darling little Crash, I could forgive him because it made sense from his perspective.

We learn a great deal about the namesake of this book, Ferran, and his past as well as a surprising twist I did not see coming. Him and Lori are so perfect together and yes, I've been at my fictional matchmaking again. There were a great deal of questions raised regarding his family's dealings and just who they've gotten mixed up with—yet more things making me salivate over Krait's Redemption.

I never thought I would say this, but Cerastes has made me miss Volcrican. At least then, it was just one psychotic serial killer and a few wraiths we had to worry about, now we have a sociopathic, mostly-demon cult leader with his little minions and a mission to destroy all life. Cerastes scares me and I can't wait for someone—preferably Crash—to kill him. (Just as soon as Cerastes finishes off that Daniellan fellow in some imaginative and nasty fashion.)

Then there's Krait. When she was first introduced, I did not like her at all and now...let's just say that the next book's title has me very excited.

There was one character introduced at the beginning of this book, Cobra, another assassin, who freaked me out at first, but I ended up softening toward him at the end. I mean the very, very end. I can't say much else because of spoilers, but I felt I should at least mention him.

This review has gone on way too long and turned into more of a fangirling session, so I'll wrap it up by saying the story just keeps getting better and you all won't be getting away from my passionate fanaticism any time soon.

Didn't get what I wanted

Ferran's Map (The Cat's Eye Chronicles #4) by T L Shreffler

## 4 Stars

This instalment of the Cat's Eye Chronicles concentrates on a group of demonic assassins known as The Shade, who whilst trying to resurrect the Dark God spread a plague across the land. Meanwhile Crash is haunted by his old Grandmaster who is determined to draw him over to the dark side.

As ever T L Shreffler has written a faultless book, she has taken care to ensure every word used keeps the story moving and the plot itself is exciting, fast paced and interesting. This book is deserving of 4 maybe even 5 stars because it is a brilliant fantasy adventure.

But...(and I really don't have the right to say this because The Cat's Eye Series is not mine to write or to dictate its direction) personally, I am not happy with the way the series is progressing.

Books one and two (Sora's Quest and Vipers Creed) really excited me, and it was all because of Sora and Crash. I was invested in those two characters, I loved their interaction and I really enjoyed the exciting journey they travelled. In fact it was possibly the first fantasy novel I'd picked up and actually fallen in love with. I pimped these books EVERYWHERE, wanting all my friends to meet the pair and fall in love with Crash as I did. (Yeah he is on my list of book boyfriends!)

By the time I got to Volcrian's Hunt (book 3) I was disappointed that though we were still given snippets of Crash and Sora's relationship, it was only smouldering and not really going anywhere. The tone of the story had changed in that book, other factors seemed to be taking centre stage and Sora and Crash were taking a step back. The book though well written and credible, left me feeling unsatisfied because their relationship was fading into the background yet for me that was the most important part of the storyline.

After waiting well over a year between books three and four (with only a companion novella about Harpies to keep me going) I was really hoping that this book would focus more on the characters that had pulled me in in the first place, but nope they were hardly in it at all, and when they were, they were rarely together and Sora's thoughts about Crash were confused... A little like me over my feelings for the series now!

love it!!!

By Nubia

How can I put this.... Fine, here it goes! It was amazing. Quite an adventure these characters are having through the journey! A new threat from the Sixth race lead by Crash's Grandmaster Cerastes. Doubting if Krait is really Moss but I have feeling she is, and I do hope so because Caprion really have feeling for her. Yea I'm here all hopelessly romantic, because of that and CRASH and SORA finally shows their feeling to one another! I know they might split up to look out a way to defeat Cerastes, but I know their trust and love fore each other could win in the end. They have developed a lot throughout their journey and I couldn't help but fangirl about it!! Also I have a gut feeling that Sora is Ferran's daughter, but who knows it might be. So now to wait for Krait's Redemption to come out so it can answer a lot of question I have right now lol. I hope it is soon by the end of this year or mid year idk. Keep doing such a good work T.L Shreffler!
