Great reference book, trail ratings and what to go see and do.

By Linda W

I bought this book for our trip down to Moab. It was our first time going. We took it with us even though we did have GPS that had most of the trails on it. This book really helped us out for directions and what to see. There are nice pictures in it and it gives you the trail rating on how difficult it would be to manage on your UTV or Jeep. We pulled this out many times to look at along with reading our GPS in our Polaris RZR. The combination of the two was a winner. We are going back next year and bringing the book with us. We did notice that this book was sold everywhere in Moab. I think that means you should buy it. It is a great resource and we are using it already to plan our next trip. Moab is amazing and there is so much to see and do. You need to buy this book and make a trip there.

Outstanding Guide Book!!

By Neil A. Ternet

I am in Moab as I write this. This book is perfect. I used it while driving four different trails, did the Shafer trail with a Jeep Wrangler, Hells Revenge, Fins and Things, and Hurrah Pass with a RZR 1000.

Don't go without it

By Steve T.

We just returned from 2 weeks of Jeeping in Colorado and Moab and these guide books were perfect for pre-route planning and while on the trail to identify problem areas and points of interest. Each trail is laid out in a 2-page format (except for the very technical, longer trails) and it includes a narrative with good general info, a map of the trail with waypoints, and a detailed list of turn by turn instructions laid out my mileage. Not all trails have bail out points or go-arounds for major obstacles but they are listed when present. Good info to have if you have an emergency or bite off more than you can chew on a trail. I'm a planner and I did the research on what guides to use...this is the best by far. There are separate books from this company for ATV legal trails.
