not my thing

By emma paduraru

I finished reading it because I paid for it. It should be in the inspirational romance section in my opinion. I really wish I had known about the religion bent before I purchased the book. Oh well.

Frustrating and disappointing.

By Janet H. Landis

The characters were one dimensional, the plot flat and unrealistically simple. I've enjoyed all of Catherine Anderson's books but this one irritated me. It looked like large sections had been edited out in the middle of chapters leaving huge gaps. The "action" consisted of two episodes separated by saccharine dialogue, scanty and minimally descriptive sex scenes, and none of the character development I've come to expect from her other novels. I've worked in shelters with victims of domestic violence and honestly felt insulted at her depiction of it. All in all, a huge disappointment.

Couldn't Make it to the End

By Tina S.

This book started out sooo good, I loved it. It was exciting and the characters were likable. Then by the middle it got a little corny, the male character all of a sudden started calling the female character "honey" and called her "Mandy" instead of "Amanda". This was way too soon, as their relationship was not matching this level of familiarity yet. Also, we are reading about an abused woman on the run. In reality she would still be skittish and unsure considering the amount of time she has known this man. Even so, I kept reading...The author introduced the whole family, which I feel was in efforts to lay the ground work for future books. This was boring, and took too much time, therefore interrupting the main storyline. I still kept reading, the story finally got so boring I had to stop. Note to authors: quality over quantity. I'm sure readers would prefer to read a shorter book that stays on point and is entertaining. Normally, I really enjoy Catherine Anderson's books, this one was the exception.
