A complete resource.

I'm only a beginner but this book seems to have plenty of well illustrated information.

This is 4 books in one (for : Guitar Theory, Fretboard knowledge, Eartraining, Sightreading). One great thing is that it has links of chapters from 3 of the other sections so your learning is very wholesome. My guitar teacher made this recommendation and he say it has information similar to a Music degree syllabus.

The Complete Contemporary Guitarist

By Janio

This is a great book. Are actually four books in one. The price is more affordable than buying the four volumes separately. The topics are: Theory, ear training, sight-reading and fretboard.
