Creepy ghost story for Grades 3-6

By Z Hayes

Thanks to our local library, my daughter and I have enjoyed several playaways which are basically all-in-one audiobooks. All one needs is a triple A battery and one is set to go. At our local library, patrons are expected to supply their own batteries and headphones (the latter because of hygiene concerns). They are really small and inconspicuous so that it makes it convenient to slip into a purse, bring it along to the gym or while exercising outdoors & indoors, and also on car trips. Although it is an all-in-one audiobook, the playaway can also be heard via a CD player with the use of an adapter.

The operation of the playaway is simple - one just plugs in earphones, speakers, or a car adapter into the provided jack; press the POWER button, press the play button, and listen! There is a keypad which allows the listener to do one of the following: equalizer, Power button, speed button (choice of 5 speeds), turning volume up, turning volume down, LCD screen which indicates the status and how much battery power is left, reverse button for chapters, play/pause button, and forward chapter button.

I have read several of Mary Downing Hahn's ghost stories and they are mostly well-written and atmospheric. In *Wait Till Helen Comes*, twelve-year-old Molly and her ten year old brother Michael are unhappy that their summer plans have been ruined by their mom and stepdad's decision to move to the country to devote time to their artistic pursuits. Things are made even more difficult by their seven year old stepsister, Heather, an extremely unhappy little girl who appears to hate Molly, Michael, and their mom. Heather is very possessive of her dad and rebuffs any friendly overtures by Molly's mom.

When the family moves to their new home, Molly is shocked to discover that their new place, an old church, also comes with an old graveyard! Molly senses something is not quite right with the graveyard especially when Heather finds a long-forgotten grave. Molly gets a bad feeling when she sees that the tombstone has the initials HEH, the same as Heather's. Soon after, Heather begins acting very strangely, and Molly thinks that Heather may be haunted by the spirit of a restless ghost who died almost a century ago. The trouble is, no one believes Molly, and the family tensions increase to the point that Molly loses all credibility with her mom and stepdad. When Molly and Michael do some research at the local library, they unearth some unsettling facts about the history of Harper House, the old ruins which has become Heather's favorite haunt. Molly fears that Heather's ghost friend may be a malignant spirit intent on causing all of them harm, but who is going to believe her and help her?

The narration is suitably suspenseful and creates a creepy atmosphere. Molly is a character one can

sympathize with, yet her scaredy-cat manner does get annoying at times. The spirit of the girl ghost is well portrayed, as is the character of Heather, a lonely, vulnerable, and deeply disturbed child. This is another atmospheric and suspenseful ghost story from Ms. Hahn.
