1 of 1 people found the following review helpful.

There isn't much else out there for Riverbed.

By Ross

\$9 for what is basically a large whitepaper is ridiculous. The content was good for a whitepaper, terrible for a book. Lots of high level not much detail. Unfortunately, there really isn't anything else out there that I've found.

0 of 1 people found the following review helpful.

Great book! Clear to read and taught me exactly ...

By Maria

Great book! Clear to read and taught me exactly what I needed to know about WAN optimization. Thank you Nolan Chen. Maria
